[14] "Quaternion Computation from a Geometric Point of View," M. D. Shuster and G. A. Natanson, *Journal of the Astronautical Sciences*, Vol. 41, No. 4, October–December 1993, pp. 545–556.

*This list contains the titles of the half of the author's archival publications which he feels have been or will be most useful or most interesting to astronauticists.
**The portion of this paper on alignment estimation was very primitive and superseded by items 9 and 10. The material on accuracy estimation requires no modification and is still worth knowing.
